Universal Sender
Pack

Buzzer

Installation Manuals

Switch Assembly

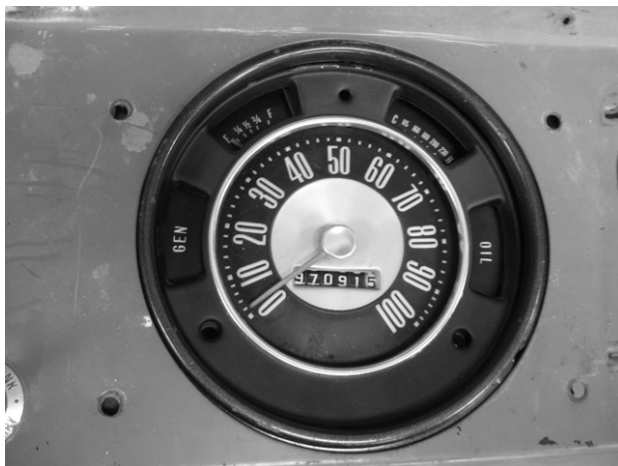

Ford Speed Adapter

Main Harness

Control Box

Installation

1. Remove the stock gauge cluster from the dash.

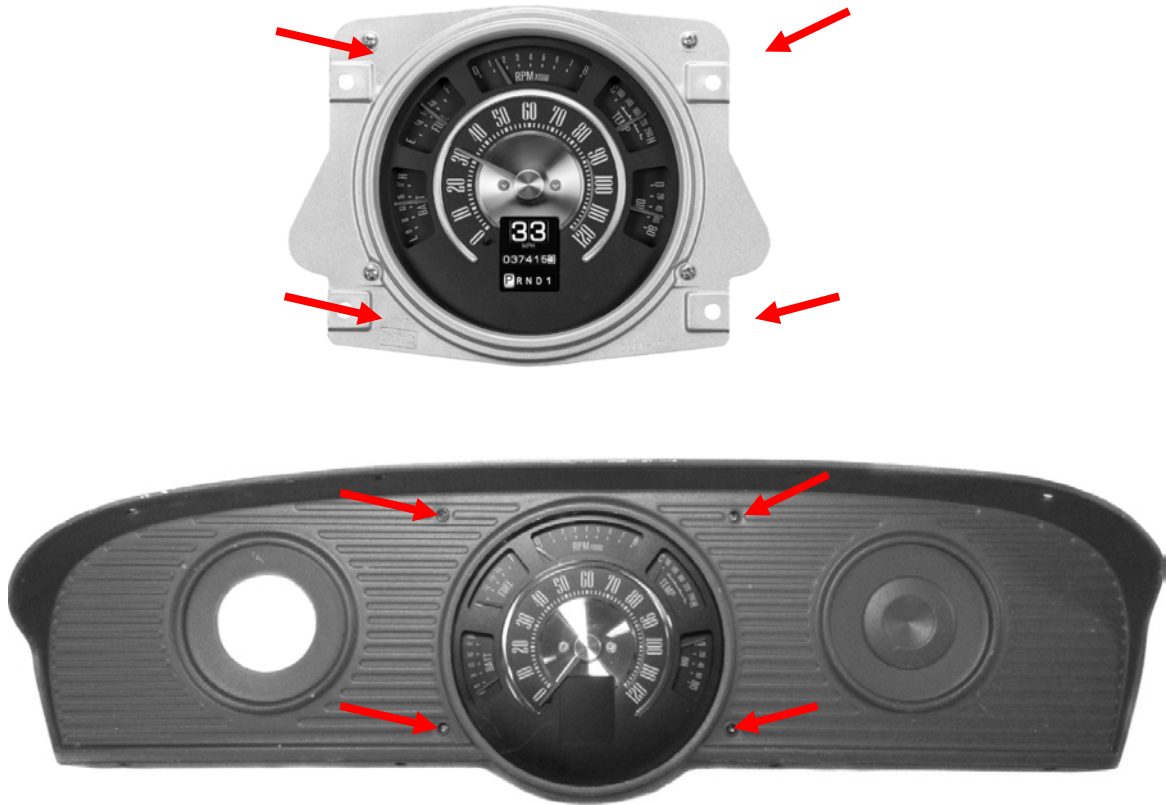

2. Remove these four screws to separate the bezel from the gauges.

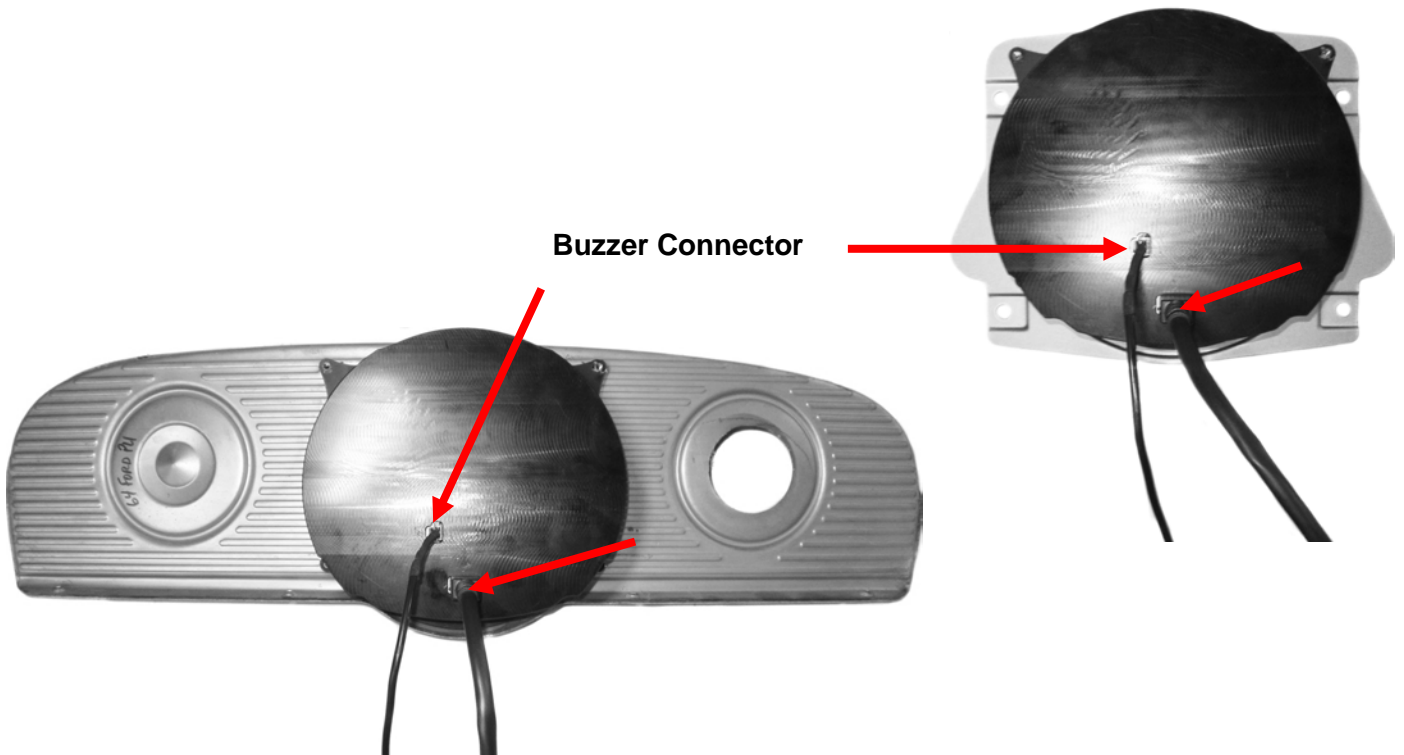

3. The only part that will be re-used is the stamped bezel and the screws that mount the bezel.

4. Secure the RTX system to the bezel with the four supplied screws. The RTX system should align tightly and sit flush with the bezel.

5. Connect the provided harness and the buzzer (optional for audio feedback) to the back of the RTX system.

6. Re-install the cluster into the vehicle and refer to the main manual for wiring instructions to complete the RTX installation.
