## **Heat Blaster Kit**

**#5206 Date 10/12/11**

Parts list: Motor Fan 2 electric connectors Six screws

1. Disconnect battery just to be safe.
2. Remove heater from Bronco.
3. Remove stock motor and fan.
4. Position new motor with flat portion against the passenger side of the heater box. It will match the flat part of the box.
5. Mark the heater box to drill six holes for screws to hold the new motor into the heater box. Pic #1
6. Center the fan and mark the heater box for cutting to make clearance for the new fan. You will be cutting more towards the passenger side of the box. Pic#2
7. Drill holes and trim box to fit fan.
8. Attach fan to motor and test fit.
9. Install motor and fan to heater box using six screws.
10. Use ground wire from old motor. Attach ground wire from metal dash to one of the screws used to hold motor to the heater box.
11. Attach hot wire to motor using connector.
12. Connect battery and check motor operation.
13. Install heater into Bronco.
